ANXIETY AND COMORBID DISORDERS: Understanding Risk, Optimizing Outcomes

SAVANNAH
Anxiety Disorders Association of America
28TH ANNUAL CONFERENCE • March 6-9, 2008

Savannah International Trade and Convention Center and Westin Savannah Harbor Golf Resort & Spa
Dear Colleagues:

Welcome to the 28th Annual Conference of the Anxiety Disorders Association of America. Whether you are a researcher or clinician, a student or an established professional; whether this is your first time or your twenty-eighth time, this meeting offers something for you.

This year’s Conference Chairs, Drs. Barbara O. Rothbaum and R. Bruce Lydiard, and the members of the Annual Conference Committee have captured the spirit and mission of ADAA, focusing on the theme “Anxiety and Comorbid Disorders: Understanding Risk, Optimizing Outcomes.” Thank you to those who have contributed to the conference with a presentation. We’re sure that all of you will find the scientific program, the workshops, and the symposia to be thought-provoking, stimulating, and practical.

ADAA has been off to an exciting start in 2008. As part of a public-education campaign about obsessive-compulsive disorder, we produced a public service announcement. We are so grateful to David Hoberman, ADAA board member and founder and president of Mandeville Films; Tony Shalhoub, who portrays Adrian Monk, a TV detective with OCD; and Howie Mandel, the host of Deal or No Deal. They all volunteered to appear in the PSA. Stay tuned, and we’ll let you know how this campaign is doing.

Enjoy the meeting!

Sincerely,

Jerilyn Ross, MA, LICSW
President and CEO, ADAA

THURSDAY, MARCH 6, 2008

9:00 AM to 6:00 PM
Registration

5:30 PM to 7:00 PM
Opening Session
Welcome: Jerilyn Ross, MA, LICSW
Keynote Speaker: Ronald Kessler, PhD, Harvard Medical School
Comorbidity of Anxiety Disorders with Other Physical and Mental Disorders in the National Comorbidity Survey Replication
Dr. Kessler will present data on the comorbidities of DSM-IV anxiety disorders with other mental disorders, as well as with a number of chronic physical disorders in the general population of the United States. The data come from the National Comorbidity Survey Replication (NCS-R), a nationally representative household survey that assessed the prevalence of and correlates a wide range of mental and physical disorders. In addition to presenting descriptive data on comorbidities, analyses will be reported on temporal priorities in comorbid pairs and the associations of comorbidity with persistence and severity of comorbid disorders compared to pure disorders.

7:15 PM to 8:30 PM
Welcome Reception
Kick off the conference and meet friends at this event. All registered participants are invited.

Eda Gorbis, PhD, LMFT, and Jenny C. Yip, PsyD, Westwood Institute for Anxiety Disorders

4:30 PM to 6:00 PM  
Room 104  
57R Anxiety Sensitivity and Psychopathology: Recent Findings and New Research Directions  
Kiara R. Cromer, MS, Florida State University – Chair

Dimensions of Anxiety Sensitivity and Dimensions of Obsessive-Compulsive Symptoms  
Jonathan Abramowitz, PhD, University of North Carolina at Chapel Hill; Bunmi Olatunji, PhD, Vanderbilt University; Brett Deacon, PhD, University of Wyoming; Michael Wheaton, BA, University of North Carolina at Chapel Hill; Brittain Mahaffey, BA, University of North Carolina at Chapel Hill

Methods of Delivering Interoceptive Exposure for Reducing Anxiety Sensitivity: Preliminary Results From a Randomized, Controlled Trial  
Brett J. Deacon, PhD, University of Wyoming; Jonathan S. Abramowitz, PhD, University of North Carolina at Chapel Hill; James Lickel, BA, University of Wyoming; Elizabeth Nelson, BA, University of Wyoming; Brittain Mahaffey, BA, and Sarah Simpson, BA, University of North Carolina at Chapel Hill

An Evaluation of Anxiety Sensitivity as a Vulnerability Factor for Compulsive Hoarding  
Kiara R. Cromer, MS, Meghan A. Keough, MS, and Norman B. Schmidt, PhD, Florida State University

An Evaluation of Anxiety Sensitivity as a Vulnerability Factor for Smoking Motives and Barriers in Quitting Among Daily Smokers  
Adam Gonzalez, BA, and Michael J. Zvolensky, PhD, University of Vermont

5:00 PM to 5:30 PM  
Room 204-205  
39C PTSD and Substance Abuse Comorbidity: Unique Aspects of Etiology, Presentation, and Implications for Treatment  
Theresa Souza, MS, Western Michigan University
5:00 PM to 6:00 PM
Room 202

44C Subtypes of Driving Phobia and Their Specific Cognitive-Behavioral Treatment
Roger Tilton, PhD, Cognitive Therapy Center of Riverside, Chapman University

108C Clinical Exchange: Networking Opportunity for Advanced Clinicians (no CEs or CEUs available)
Informal facilitated discussion group. Bring your own ideas and experiences.

Beyond the Data (or While Waiting for the Data): What clinical interventions or observations do you believe others may find helpful in treating complex patients who cannot seem to respond to currently available evidence-based interventions? Under what circumstances or with whom might you use these practices? How do you interface with complementary medicine such as acupuncture and food supplements when patients seek these out? Do you have your own extended metaphors for coping with or accepting anxiety that your patients find illuminating and you wish to share?

5:00 PM to 6:00 PM
Room 202

6:15 PM to 9:30 PM

General Information

The ADAA Annual Conference provides education and training for clinicians and researchers. This conference offers a forum to share treatment information and research, as well as individual cases. The educational format ranges from research lectures to clinical workshops. Individuals with anxiety disorders and their families are invited to participate in this professional conference to learn about the most recent research and treatment. All presentations and posters are peer-reviewed.

Learning Objectives

After participating in this conference, participants should be better able to:

- Identify and differentially diagnose anxiety and comorbid disorders.
- Select and apply evidence-based treatments for anxiety disorders.
- Develop an understanding of the best ways to maximize treatment outcomes for individuals with anxiety disorders and associated health risks.

Badges are required for admission to all sessions, symposia, poster session, receptions, and exhibits. Please wear your badge during the Conference. Remember to remove your badge in town.

STCC Business Center is located on the first floor of the Convention Center. It is self-service and is open during conference hours.

Emergency Information: In the event of an emergency inside the Convention Center or hotel, please dial “O” to request assistance. Outside the Convention Center or hotel, dial 911.

Handouts are requested for all sessions. We can only provide handouts if the speaker has submitted them. Extra copies are available on the Take-One table near Registration.

Message Board is located in the Convention Center near Room 100. To contact conference participants, you may leave a message on the Board. Incoming messages will also be posted.

Poster Set-up Hours: Poster presenters will be able to set up their presentations on Friday, 2:30–5:30 PM, Chatham Ballroom A&B. Posters must be removed by 8:00 PM. Any posters remaining at the end of the session will not be saved.

Registration will be open daily in the Savannah Convention Center Rotunda Foyer. Hours: Thursday, Friday, and Saturday, 7:00 AM–5:30 PM; Sunday, 8:00 AM–1:00 PM.

Smoking is NOT permitted during any session or function.
CONTINUING EDUCATION

CME/CE credits are available for an additional fee per discipline to those individuals registered as professionals. Guests and students may not apply for CME or CE. Stop by Registration with questions.

CME Credits

Accreditation
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Tulane University Health Sciences Center and the Anxiety Disorders Association of America (ADAA). Tulane University Health Sciences Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation
Tulane University Health Sciences Center designates this educational activity for a maximum of 30 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ADAA and Tulane University Health Sciences Center present this activity for educational purposes only and do not endorse any product, content of presentation, or exhibit. Participants are expected to utilize their own expertise and judgment while engaged in the practice of medicine. The content of the presentations is provided solely by presenters who have been selected because of their recognized expertise.

Disclosure
It is the policy of the Center for Continuing Education at Tulane University Health Sciences Center and ADAA to plan and implement all of its educational activities in accordance with the ACCME’s Essential Areas and Policies to ensure balance, independence, objectivity, and scientific rigor. In accordance with the ACCME 2004 Standards for Commercial Support, everyone who is in a position to control the content of an educational activity certified for AMA PRA Category 1 Credit is required to disclose all relevant financial relationships with any commercial interests within the past 12 months that creates a real or apparent conflict of interest. Individuals who do not disclose are disqualified from participating in a CME activity. Individuals with potential for influence or control of CME content include planners and planning committee members, authors, teachers, educational activity directors, educational partners, and others who participate, e.g. facilitators and moderators. This disclosure pertains to relationships with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the subject matter of the presentation topic. Any real or apparent conflicts of interest related to the content of the presentations must be resolved prior to the educational activity. Disclosure of off-label, experimental or investigational use of drugs or devices must also be made known to the audience.

CE Credits

Psychologists: ADAA is approved by the American Psychological Association to sponsor continuing education credits for psychologists. ADAA maintains responsibility for this program and its content. CE credits for psychologists are granted on a 1 credit per contract basis.

Social Workers: The National Association of Social Workers has approved ADAA to offer continuing education credits for social workers.

Counselors: The National Board of Certified Counselors has approved ADAA to offer continuing education credits for counselors.

This conference has been approved as a Mandatory Continuing Education for Psychologists (MCEP) provider by the California Psychological Association Accrediting Agency. ADAA has been approved to serve as a provider of CE for licensed marriage, family, and child counselors (MFCC) and licensed clinical social workers (LCSW) in California.
